

Exam Information

The AP Spanish Language and Culture Exam assesses students' proficiencies in the Interpersonal, Interpretive, and Presentational modes of communication. The exam is 3 hours long and includes both a 95-minute multiple-choice section and an 85-minute free-response section. The multiple-choice section accounts for half of the student's exam grade, and the free-response section for the other half.

Section I, the multiple-choice section, primarily assesses Interpretive Communication by asking students to identify main points, significant details, purpose, and intended audience of a variety of texts and to make inferences and predictions based on them. Some questions require students to show understanding of cultural or interdisciplinary information contained in the text. Each selection is accompanied by a preview that provides contextual information.

Section I, Part A, consists of a variety of authentic print materials (e.g., journalistic and literary texts, announcements, advertisements, letters, maps, and tables).

Section I, Part B, consists of a variety of authentic audio materials, including interviews, podcasts, public service announcements, conversations, and brief presentations. This section is divided into two subsections. The first subsection includes audio texts that are paired with print materials; the second consists solely of audio texts. Students will have time to read the preview and skim the questions before listening to the audio. All audio texts will be played twice.

Section II, the free-response section, assesses Interpersonal and Presentational Communication by requiring students to produce written and spoken responses.

In the writing portion, students demonstrate their ability to write in the Interpersonal Mode by reading and replying to an email message. Then, using the Presentational Mode, they write a persuasive essay based on three sources that present different viewpoints on a topic. Students read an article, study a table or graphic, and listen twice to a related audio. Then they have 40 minutes to write an essay in response to a prompt using the information from all three sources to present and defend their own viewpoint. Students have access to the print sources and any notes they may take on the audio during the entire 40-minute writing period.

The speaking portion assesses speaking in the Interpersonal Mode by asking students to respond to questions as part of a simulated conversation. Students are provided a preview of the conversation,

including an outline of each exchange. This portion also assesses speaking in the Presentational Mode by requiring students to make a 2-minute presentation in response to a prompt on a cultural topic. In their presentation, students compare cultural features of their own community to those found in an area of the Spanish-speaking world with which they are familiar. Students are encouraged to cite examples from materials they've read, viewed, and listened to, as well as from personal experiences and observations.

If using the downloadable PDF version of this publication, you will hear the audio upon clicking on the audio icon (🔊). If using the print version, please visit your course's home page on AP Central for the audio. Scripts for audio are presented in this publication for reference. They are not provided to students during the exam.

The sample exam items in this Course and Exam Description include an Answer Key and an indication of the learning objective(s) from the Curriculum Framework, targeted by each item.

Course Themes

Designing the AP Spanish Language and Culture course around themes creates an interesting, meaningful context in which to explore a variety of language concepts. Themes help teachers integrate language, content, and culture into an interrelated series of lessons and activities that promote the use of the language in a variety of contexts. A theme may be used to plan a brief unit of study, a comprehensive unit spanning a greater period of time, or to connect with courses in other disciplines.

The AP Spanish Language and Culture course is structured around six themes:

Recommended Contexts and Essential Questions

Each theme includes a number of *recommended contexts* for exploration. Teachers are encouraged to engage students in the various themes by considering historical, contemporary, and future perspectives as appropriate. Teachers should assume complete flexibility in resource selection and instructional exploration of the six themes. The recommended contexts are not intended as prescriptive or required, but rather they serve as suggestions for addressing the themes.

One way to design instruction with the themes is to identify *overarching essential questions* to motivate learners and to guide classroom investigations, learning activities, and performance assessments. Essential questions are designed to spark curiosity and engage students in real-life, problem-solving tasks. They allow students to investigate and express different views on real world issues, make connections to other disciplines, and compare aspects of the target culture(s) to their own. Essential questions also lend themselves well to interdisciplinary inquiry, asking students to apply skills and perspectives across content areas while working with content from language, literature, and cultures of the Spanish-speaking world.

Integrating Themes, Recommended Contexts, and Essential Questions

AP Spanish Language and Culture teachers are encouraged to consider the interconnectedness of the themes. A unit on environmental issues (Global Challenges) might, for example, touch upon recommended contexts from more than one theme. Students might study inventions as catalysts of change (Science and Technology), influences from religious beliefs or social values (Personal and Public Identities), or the aesthetics of eco-friendly architecture (Beauty and Aesthetics).

The recommended contexts for exploring a theme can be varied depending on available authentic materials, teacher-developed resources, and commercially produced materials, as well as teacher creativity and student interest. The design of the course should include essential questions that will capture students' interest, engaging authentic materials, and learning activities that help students consider themes across time and across cultures.

It should be noted that literature is not merely a recommended context for one of the course themes (Beauty and Aesthetics) but should serve as a powerful vehicle for delivering content to address all of the themes. Literary works may be incorporated throughout the AP Spanish Language and

Culture course in relation to a variety of themes, such as the environment (Global Challenges), rites of passage (Contemporary Life), or issues of cultural assimilation (Personal and Public Identities).
